DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 43-48 are withdrawn upon further consideration.
new rejections follow.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Regarding claims 43-48, the word "means" is preceded by the word(s) "storage" and "price distribution" "credit storage" "market view distribution" etc., in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the word(s) preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Klumb*, 159 USPQ 694 (Bd. App. 1967).
4. Claims 43-48 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Are you claiming a method, a system or something else?

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

6. Claims 43-48 are rejected under 35 USC § 101 as being directed to non-statutory subject matter. The applicant more than one statutory class. For example the applicant claims a "system" in the independent claims with apparatus limitations then provides dependent claims that are a part of method see claims 43-48, say (see MPEP 2106.01). Also it seems that a human is recited as part of the apparatus (e.g. "trading agents") (see MPEP 2105)
